WASHINGTON, Friday, July 14, 1865.
At the laying of the corner stone of the Washington City Protestant Orphan Asylum yesterday, the Secretary of the Interior Mr. Harlan, in his brief address said:

"When the French, not now so friendly to our prosperity, sprung arms in the defense of the Turkish nationality, we all applauded; but when they attempt to crush feeble Mexico we deplore their want of generous gallantry, and wish it might be the will of God, in the order of His Providence, that this Great Republic of ours should be called upon to protect her feeble Sister Republic."

This remark met with general applause from the large auditory present.

THE DETROIT CONVENTION.

Report of the Committee on Commerce—Various Subjects Considered—Debate on the Reciprocity Treaty—Weights and Measures—River and Harbor Improvements—Canadian Annexation—Negotiation of a Reciprocity Treaty Recommended.

DETROIT, Friday, July 14, 1865.
Mr. J. A. Bower of Chicago, from the Committee on Commerce, made a report commending to the consideration of the Legislative bodies of the State and the Nation, the following subjects:

The construction of the Illinois River and Jay Ship Canals.
The improvement of the Fox and Wisconsin Rivers.
The improvement of the Canals of New York.
The reopening of railroad freights and an increase of the capacity to carry freight.

The relief of our shipping and railroad interests from severe Government taxation.
An improved system of surveys and sounding.
An improvement in Custom-Houses and Light-Houses.

The early improvement of Western rivers and harbors.
The judicious encouragement of regular lines of steamships to countries upon this continent and Europe.

Such regulations of our commerce and carrying-trade with the Canada and Europe as will best promote the general interest of our own merchants, farmers, manufacturers and shippers.

The report also asks the Convention to give the weight of its influence in favor of building up our common country in such a manner as to give us union, prosperity and peace.

The report was accepted and adopted.

On motion of Mr. Seaman the Convention agreed to adjourn sine die at 3 o'clock this afternoon.

Debate was then resumed on the Reciprocity Treaty. Mr. Howe of Nova Scotia had consent to place on the journal of the Convention his report on a ship canal from the St. Lawrence River to the Hudson.

The same privilege was extended to Mr. Hill of Boston, favoring Congressional aid to ocean steamers.

Mr. Alexander's report in favor of the decimal system of weights and measures was referred to a Special Committee from the States and British Provinces.

Mr. Alexander's report in favor of a National Board of Trade was referred to a special committee to report complete forthwith.

Mr. Brown, from the Committee on River and Harbor Improvements, reported a resolution recommending the national character of navigable rivers and lake harbors, which offered facilities for conducting the commerce of the country, from which the Government derives a large revenue, and stating that it is the sense of this Convention that it is the interest as well as the duty of the General Government to make such improvements on such rivers and harbors as the necessity for it may be developed, and as the condition of the Treasury will warrant.

The report of Mr. Howe of Nova Scotia was important in the announcement that the annexation of the British Provinces to the United States had no place in the minds of the people of the provinces. He said that any one who should go to "hostilities" as an advocate for annexation, would be treated as a fugitive from the loyalty and allegiance due from him as a British American.

The resolution recommending the negotiation of a Reciprocity Treaty received the unanimous vote of the Convention. Adjourned.

THE PROPOSED NIAGARA SHIP CANAL.
The following are the resolutions respecting the Niagara Ship Canal, adopted by the Detroit Commercial Convention on Thursday:

Resolved. That the annual increase of the production of the States lying upon and tributary to the northern lake has exceeded the capacity of transportation of all the avenues to the Atlantic, demonstrating the urgent need of enlarged water facilities for communication between the West and East.

Resolved. That the canal and various lines of railroads leading to and from said lakes, while they have contributed vastly to develop the resources and increase the wealth and promote the permanent union of our whole country, are wholly inadequate to the demands of our commerce and the growth of commerce, and therefore, **Resolved.** That this Convention regard the construction of a ship canal around the Falls of Niagara, as demanded by the necessities of commerce and political wisdom, and that its early completion be the paramount object to be pursued by every consideration of sound political economy.

Resolved. That such canal, of a capacity to pass the largest steamer or sail vessels which now or hereafter may navigate the Lakes, will afford the cheapest and most expeditious water communication for the transportation of the products of the great producing States of the West and North West, by bringing into use the most easterly of the entire chain of lakes on our northern frontier, from which there annually increasing quantities of goods and produce are sent to the East, and by railway to the Hudson and New York, by sailing into New England and Pennsylvania, and by the St. Lawrence River direct to the ocean.

Resolved. That the State of New York, geographically located on the highway of commerce between the great chain of lakes to the seaboard, and having within her borders the metropolis of the nation, is bound by every consideration of interest and true policy, and by equity, to share the expense of such canal, and to complete the work at the earliest day possible, thus opening the channel between the lakes and tide-water, alike ample and cheap, and sufficient to meet the wants of the great grain growing States of the North West for all time to come, and, as trade increases, enabling the States to compete with the great Eastern States, and to secure a permanent and profitable commerce with the West.

Resolved. That in the event of a negotiation of any treaty of reciprocity between it and the British Provinces, our Government should be careful to secure in such treaty a guarantee of sufficient depth of water to enable our steamers of not less than 1,000 tons of cargo-carrying capacity to pass from Port Colborne, Canada West, to tide-water.

Resolved. That the Governor of New York be and is hereby respectfully requested to command in his next annual message to the Legislature of that State, that authority be granted to proceed, without delay with the enlargement of the locks on the New York canals, and that suitable appropriation be made, therefore, as to complete the work at the earliest day possible, thus opening the channel between the lakes and tide-water, alike ample and cheap, and sufficient to meet the wants of the great grain growing States of the North West for all time to come, and, as trade increases, enabling the States to compete with the great Eastern States, and to secure a permanent and profitable commerce with the West.

Resolved. That the Secretary of this Convention be requested to send a copy of the foregoing preamble and resolutions to the Governor of the State of New York, and to the Legislatures of the States of New York, New Jersey, and Pennsylvania, and to the Legislatures of the States of Ohio, Indiana, Illinois, Michigan, Wisconsin, and Minnesota, and to the Legislatures of the States of Maine, New Hampshire,
